

PENGUINS ARE  
A-MAZE-ING!

Humans can have blue, brown or green eyes, but rockhopper penguins have very unique red eyes. What color are your eyes?

The species name of the southern rockhopper penguin is *chrysocome*, which means "golden haired." And no wonder—they have golden feathers above their eyes!

What's your favorite food? Rockhopper penguins eat a mix of fish, squid and krill. Yum!
