

Make a "Bat-Mobile"

With a grown-up, you can create a mobile you'll go "batty" for!

What You Need:

crayons or markers
decorations (optional)
scissors
tape, glue, or glue stick
string or ribbon

What You Do:

The Count

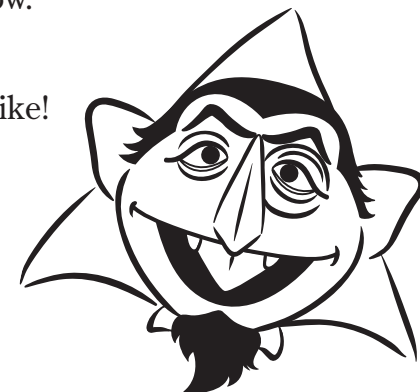

- 1 Color in both pictures of The Count. Using scissors, carefully cut along the dotted line of The Count's pictures and fold in the middle. Spread glue inside the folded paper and press together.
- 2 Punch three holes along the bottom of The Count's cape. If you don't have a hole puncher, you can pinch a bit of the paper and snip it carefully with scissors.

Bats

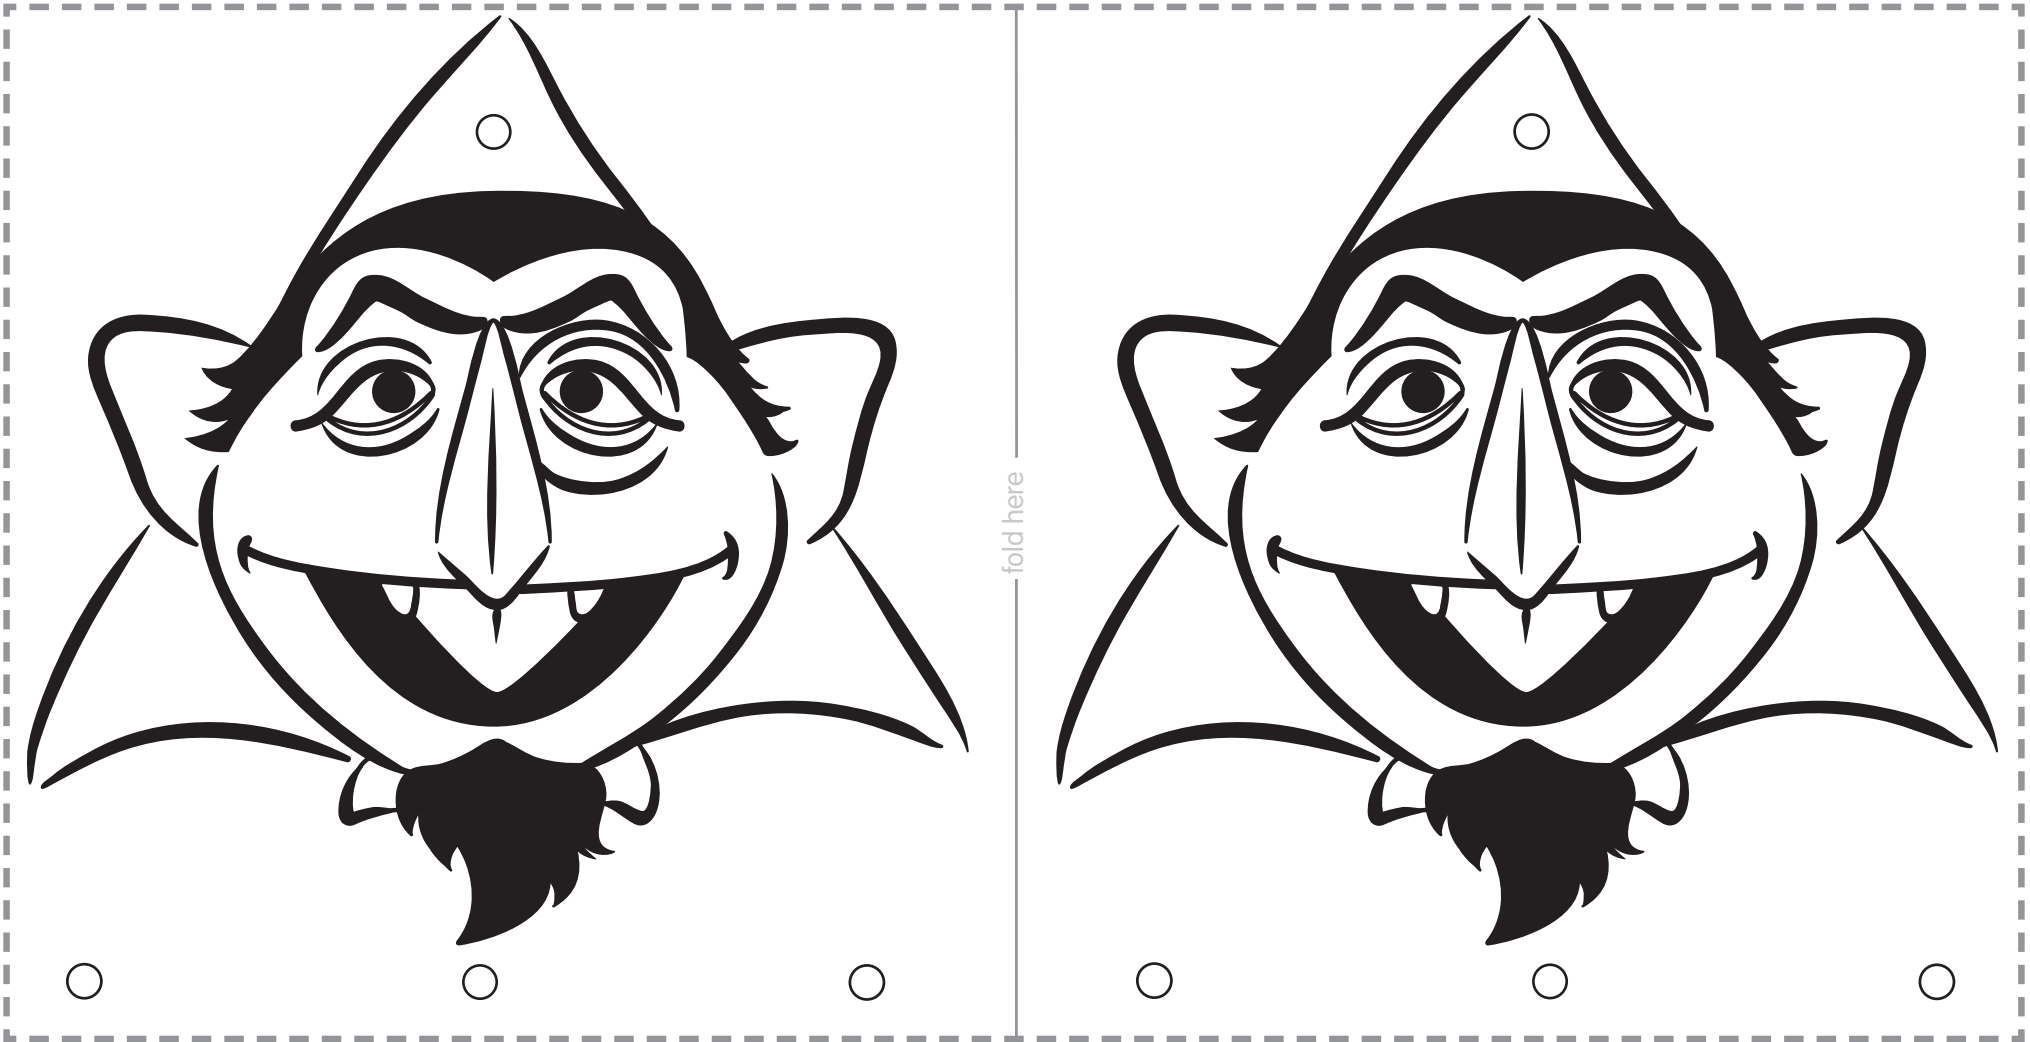

- 1 After you color The Count, decorate the bat pictures using crayons, markers, or anything you'd like. Cut along the dotted lines of each set of bats. Fold each in the middle, and paste or tape the insides of the folded paper together.
- 2 Punch one hole at the top of each bat.
- 3 Use ribbon or string to attach each bat to one hole at the bottom of The Count's picture. Use short and long pieces of string to make your bats fly high and low.

Finishing Touch!

After you attach the bats to The Count, hang your mobile anywhere you like!
