OVERVIEW
A SPECIAL THANK YOU TO THE INTERNATIONAL BOARD OF CREDENTIALING AND CONTINUING EDUCATION STANDARDS (IBCCES) FOR DEVELOPING THIS SENSORY GUIDE FOR SESAME PLACE.

For almost 20 years, IBCCES has been the industry leader in autism training for licensed healthcare professionals and educators around the globe. IBCCES recognized that many families with children who have special needs have limited travel options, and in response, created training and certification programs specifically for the hospitality and travel industry.

The assessors believe the information contained within this assessment report to be correct at the time of printing. The assessors do not accept responsibility for any consequences arising from the use of the information herein. The report is based on matters which were observed or came to the attention of the assessors during the day of the assessment and should not be relied upon as an exhaustive record of all possible risks or hazards that may exist or potential improvements that can be made.
At Sesame Place, it is our goal to provide every family with an enjoyable and memorable visit, and we are proud to offer specialized services to guests with autism and other special needs.

Our team members receive training in the following areas:

- Sensory Awareness
- Motor Skills
- Autism Overview
- Program Development
- Social Skills
- Communication
- Environment
- Emotional Awareness
MEET JULIA
Julia is a sweet and curious 4-year-old with autism.

The orange-haired girl with twinkling eyes sometimes does things differently, “in a Julia sort of way”, but Elmo and Abby help the other kids on Sesame Street understand that even if Julia doesn’t look you in the eye, it doesn’t mean that she doesn’t want to be your friend. Simply by making Julia “part of the gang,” she is already having a big impact, helping to teach children and families all about acceptance. Julia highlights that while the differences between children with autism and their peers may seem significant, all children have something far more important: unique qualities and talents that make the world a more interesting place!

Say “hello” to Julia at Sesame Place and take photos with her at Photos with Elmo & Friends.
